## Medical vs Vision

Eye care coverage, in most cases, is divided into two groups: **Medical Insurance** and **Vision Plans**. Medical is always the priority. The doctors of Vision Source Tifton will always evaluate your eyes at the highest level of care.

If there is a medical diagnosis, your **Vision Plan** requires we use your **Medical Insurance** for your visit. You will be responsible for any co-pays, co-insurance and deductibles that apply to that visit. You will also be charged for a refraction (\$41), if your **Medical Insurance** does not cover it and if one is performed.

Thank you,

Ted A. McElroy, OD
